Agile

Epic Link: 5.0 Admin Module

Description

Preconditions:

- User and valid password.
- The list of employes was created.
- Pay Grades was defined.

Test steps:

1. Enter the application;
2. Select the "Admin" module from the left corner of the application;
3. Select from the top left "Job".
4. Access "Pay Grades".
5. Go to the list and choose a pay grade name and open it.
6. Go to the Currencies section and select one.
7. Fill in the Minimum and Maximum salary field. (Example: 109.9- 309.99).

Expected result:

HR Admin is able to save the action

Actual result:

The amounts are not accepted, an error message appears, and action can't be saved.

The screenshot shows a form with a 'Currency' dropdown set to 'EUR - Euro'. Below it are two input fields: 'Minimum Salary' and 'Maximum Salary'. The 'Minimum Salary' field contains '100.90' and has a red error message below it: 'Should be a number'. The 'Maximum Salary' field contains '309.99' and also has a red error message below it: 'Should be a number'. A small asterisk with the text '* Required' is visible at the bottom left of the form area.
